

### REMARKS

The foregoing Amendment and remarks which follow are responsive to the Restriction Requirement mailed June 6, 2005 in relation to the above-identified patent application. In the Restriction Requirement, the Examiner requested restriction under 35 U.S.C. §121 to one of two purportedly patentable distinct species of the present invention, and more particularly the species of flip chip and the species of wire bond. The Examiner also indicated that currently no claim of the present application is generic.

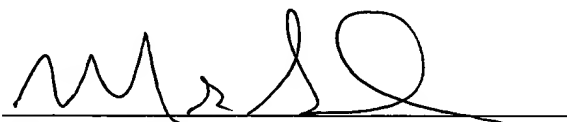

Responsive to the Restriction Requirement, Applicant hereby provisionally elects, without traverse, the wire bond species for continued prosecution. Consistent with this election, by this Amendment, Applicant has withdrawn Claims 21 and 27 which are each directed to a flip chip connection. Contrary to the Examiner's assertion, Applicant respectfully submits that all of the pending independent claims of the present application are generic to both flip chip and wire bond connection.

If any additional fee is required, please charge Deposit Account Number 19-4330.

Respectfully submitted,

Date: 6/20/05
